Its aim is to: boost language learning by the end of compulsory education by focusing on achieving specific competence levels, based on the Council of Europe's Common European Framework of Reference for Languages (CEFR)

Education and Training - Choose your language

My experience is that any difficulties which senior learners may experience in the language classroom can be overcome through adjustments to the learning environment and material, attention to physical, affective and cognitive factors, and the use of an effective teaching methodology which focuses on the learning process rather than academic achievement.

How to maximise the language learning of senior learners ...

But when teaching starts in the teachers' and learners' home language, the experience is more natural and less stressful for all. As a result, the teacher can be more creative and innovative in designing teaching/learning materials and approaches, leading to improved learning outcomes.

Why schools should teach young learners in home language ...

Language education – the process and practice of teaching a second or foreign language – is primarily a branch of applied linguistics, but can be an interdisciplinary field. There are four main learning categories for language education: communicative competencies, proficiencies, cross-cultural experiences, and multiple literacies.

Language education - Wikipedia

At any rate, foreign language learning is foreign culture learning, and, in one form or another, culture has, even implicitly, been taught in the foreign language classroom—if for different reasons. What is debatable, though, is what is meant by the term “culture” and how the latter is integrated into language learning and teaching.

The Importance Of Teaching Culture In The Foreign Language ...

Communicative language teaching (CLT), or the communicative approach, is an approach to language teaching that emphasizes interaction as both the means and the ultimate goal of study.. Language learners in environments utilizing CLT techniques, learn and practice the target language through the interaction with one another and the instructor, the study of "authentic texts" (those written in ...
